

TOP SPOT!

Draw the missing spots on our leopard and colour her in!

SPOT THE DIFFERENCE!

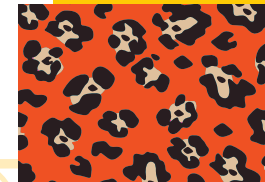

Make sure you draw
the right kind of spots.
Here's a quick guide:

Leopard
spots are
like rings.

Cheetah
spots are
solid dots.

Jaguar spots
are rings
with dots
inside.

STORYTIME: THE LEOPARD THAT LOST HER SPOTS

FUN LEOPARD FACTS

1

Leopards are brilliant climbers and they love trees. They often hide out in the branches looking for prey and will even drag it up a tree to stop other scavengers, like hyenas, from stealing it.

WOW!

Leopards are so strong, they have been known to drag small giraffes up trees.

2

Leopards are smaller than lions, tigers and jaguars, but they are the most adaptable and widespread of the big cats. Though they live mainly in Africa, you can also find them in parts of Asia.

COOL!

Though leopards can roar, they're more likely to bark. They can purr too!

3

Leopards can't change their spots, but their markings differ depending on where they live. Their spots can be square, round, light or dark – whatever gives them the best camouflage.

FACT!

Rainforest leopards are darker in colour than leopards that live in grasslands.

5

Leopards are famous for being silent, stealthy and secretive hunters. They don't chase their prey, instead they stalk it and pounce on it. Unfortunately, leopards have predators too, including packs of hyenas, tigers and lions.

OH NO!

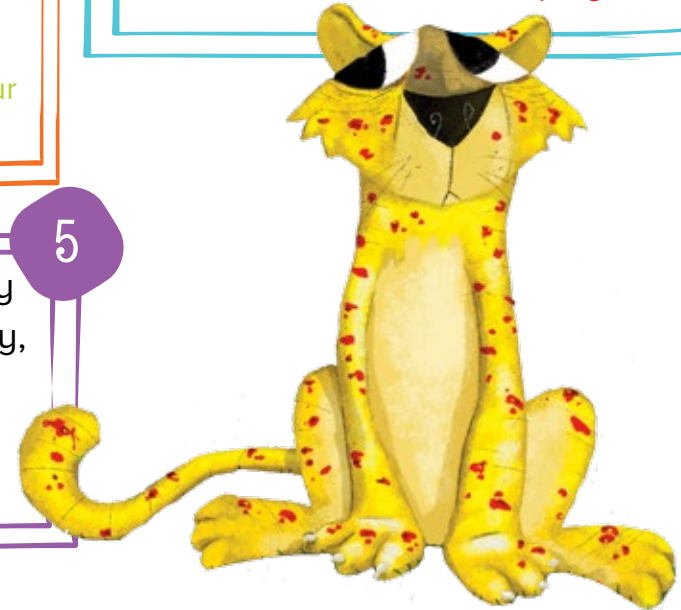

Amur leopards in Asia are the rarest big cats of all and they are critically endangered.

4

Leopards sleep up trees or in caves by day and they hunt by night. Their main prey is antelope, deer, monkeys and warhogs, but they're also good swimmers and will eat crabs, fish, reptiles, birds, rodents and insects, such as dung beetles.

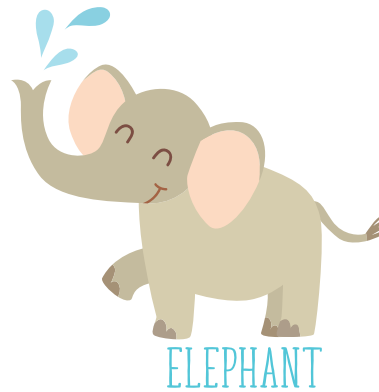

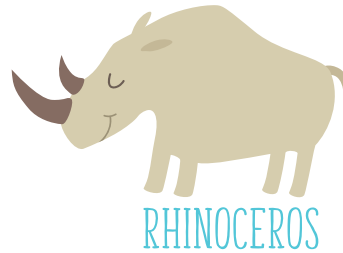

TRUE!

Leopard can go for several days without drinking water. They get most of the moisture they need from their prey.

ANIMAL MATCH

Draw a line between the animals and their famous body parts.
We've done the leopard to get you started.

SPOTS

HORN

LONG NECK

TRUNK

STRIPES

SHELL

MANE

FIN

TAIL FEATHERS

DRAW IT!

Draw a mixed-up animal. What about a lion with a long neck?

WRITE IT!

Write a story about one of the animals in **Animal Match** losing the body part they're famous for. What would they do without it? How could they get it back?

SPOTTY JUNGLE PARTY HAT

Print off our spotty party hat and join in leopard's jungle party!

INSTRUCTIONS

1. Cut out the hat, glue along the tab edge and stick it together.
2. Make small holes on either side of the hat.
3. Thread a length of ribbon, elastic or wool through each hole.
4. Tie a bow under your chin and... party!
