

PIXEL PERFECT ART

Digital Art Tips

1. Plan before you draw!

Use a pencil to sketch in the shape of the character in the grid to plan out which pixels you will colour in! When you have it planned out, you can begin colouring!

2. Choose your colours! Pixel art can look better if you only use a few. Which ones do you need for your picture?

3. Don't worry about the details! In pixel art, you won't be able to add little things to your picture. Don't worry – the idea is to find a way to show the most important things about the character...
