storytime™ AUTUMN SPOTTERS GUIDE

Here are some things that Forget-Me-Not might have found in the dark country she visited. You might be able to find them in a park or garden this autumn. Why not take this sheet there and tick off the things you find?

	Spot it!	About	Date spotted
Pine Cones		Pine trees drop their cones n the autumn which can be found scattered on the ground. Look nearby spruces and fir trees, and can be gathered for doing crafts or just burning on a fire.	
Squirrels		At this time of year, these rodents are busy gathering nuts and burying them to eat later. They are rather speedy - so you will have to be even faster to spot them!	
Blackberries		Autumn is when these tasty treats are ripe! Blackberries grow on brambles which are found in hedgerows, woods, and along paths	
Apple Orchards		Apples are harvested, and many orchards open for apple picking. They might be spotted in your neighbourhood or the local woods!	
Autumn Coloured Leaves		In the autumn, the leaves of deciduous trees change colour and fall off the branches. How many different-coloured leaves can you find?
