storytime™ WILD WINGS SPOTTERS GUIDE

The wild world is full of amazing birds to spot! Head outside and see how many of these feathered friends you can find. Tick each one when you spot it!

Bird	Spot it!	About	Date spotted
Robin		Robins are easy to spot with their bright red breast. They're often seen hopping around gardens, especially in winter. Robins are known for their cheerful singing and are often called the 'Christmas bird' because they're featured on cards!	

Bird	Spot it!	About	Date spotted
Blackbird		With its glossy black feathers and bright yellow beak, the male blackbird is easy to spot. Female blackbirds are brown with speckled feathers. Listen out for their lovely singing early in the morning!	

Bird	Spot it!	About	Date spotted
Magpie		These clever birds are black and white with a long, shiny tail. Some people say spotting one magpie brings bad luck, but spotting two brings joy. Keep count and see what you think!	

Bird	Spot it!	About	Date spotted
House Sparrow		These cheerful little birds are often found in gardens and parks. The males have grey caps and black bibs, while the females are a softer brown. Sparrows love dust baths!	

Bird	Spot it!	About	Date spotted
Wren		Tiny but mighty! Wrens are small brown birds with a loud voice. They have a stubby tail that often sticks up. Listen for their powerful song in hedgerows and gardens.
